EXTRA ADVENTURES

For some really **wild** fun, schedule the following into your plans.
Extra adventures must be booked 2 weeks in advance.

Animal Demonstrations

Reptile - A Zoo keeper will bring a reptile to your picnic for an informative, up close and personal experience!
Approximate time: 20 minutes/ \$40.00 each

(Animal Demos available April – Sept only)

Elephant Painting Demo - See one of our elephants create a work of art, followed by Q & A with a zookeeper. You may purchase the painting created at your demo by contacting the event coordinator.
Approximate time: 20 minute demo/\$110.00

ZooLabs – must be booked 2 weeks in advance

The Zoo Lab program uses trained interpreters to present animal artifacts such as skulls, feathers and hides in an interesting and educational manner. This interactive hand on experience will provide information about the animals they represent. Schedule one of the ZooLabs to come right to your event. Approximate time: 1 hour/\$60.00

African Veldt ZooLab - Learn about African elephants, reticulated giraffes, black rhinos and Nile hippos. You will get to feel the hide of a giraffe, hold an elephant tusk, and touch a rhino horn and more.

Jungle ZooLab - The world's jungles abound with birds, reptiles, and primates - and don't forget the bats. Many colorful feathers, shed snakeskin, a fruit bat skull and even an orangutan skull can be seen up close.

North American Prairie ZooLab - Meet some of our own homegrown animals that might be rare or extinct in Kansas as you examine a black bear skull, grizzly bear fur, deer antlers, and even feel the quill of a porcupine.

Pride of the Plains ZooLab - Lions, warthogs, meerkats and African wild dogs are the stars of this cart. You can compare the skulls of all four animals, touch the fur of a lion, and even feel one of its claws.

Gorillas - The Downing Gorilla Forest Zoo Lab cart offers a fun and exciting way to learn about the animals living in central and South African forests. Get a peek at what a gorilla may have had for breakfast, compare the size of your hand to that of a gorilla's, or touch a flamingo feather.

Penguin ZooLab - Explore the South American coast by examining a Humboldt penguin nest replica, barnacles and mollusks. You will also get to discover what these penguins eat and how zookeepers can tell them apart.

Tiger Trek- Learn about tigers and the perils they face through biofacts. The tigers share their habitat with many other animals that are just as fascinating.

Farms: Some of the most endangered animals are domestic farm animals. Learn about rare breeds and all they have to offer.

Zoo Lab Carts are not structured programs but meant to help educate your guests on a casual one to one basis. Trained docents conduct all Zoo labs. Call for more selections.
